PROFILE

Enthusiastic about exploring new technologies and integrating them into my work. Thrives on collaborating with teams and contributing innovative solutions. Proficient in front-end and backend technologies, I bring a unique blend of technical expertise and creative problemsolving to every project.

PROJECTS

KiddoVax

This project aims to focus on vaccination for children and pregnant women in rural areas. It tracks user locations, providing the nearest vaccination center and available slots for booking.

College Symposium Website

The creation of a college symposium website using HTML, CSS, and JavaScript. Collaborated with a team to design and implement an interactive platform showcasing event details. Developed skills in web development and demonstrated effective teamwork.

Contributed innovative ideas and strategies to enhance the visual appeal and narrative coherence of the video for symposium. **Demo**

Expave

This app that allows users to set budget limits of their choice. Once the spending limit surpasses $10,000, the app sends notifications to the user. Additionally, the app displays a column-wise extension on Google Pay, showcasing the purchased and spent lists using Figma and Excel Spreadsheet **Demo**

Accomplishment

- Third Prize in SCI HACKATHON
- Third Prize in Mini Project Contest
- Shortlisted in **LTI Mindtree Ideathon**
- UX Workshop B42 - I have learned figma , adobe XD and developed various project
- Solved **300+ daily challenge** in SkillRack **Link**
